- Xml(andriod application development)
- Requirement gathering(analyst)

LANGUAGE

English

Urdu

About Me

I am a dedicated and detail-oriented Software Engineering student at the University of Management and Technology (UMT), Lahore, with hands-on experience in C++, Java, python and Android development. I have a strong foundation in data structures, object-oriented programming, and database systems. Passionate about building efficient solutions and exploring modern technologies, I have also worked on academic projects involving mobile apps and AI-based recommendations. I'm currently seeking internship or entry-level opportunities where I can apply my skills and grow as a software developer.

Certificates

- Technical Interview Preparation Workshop
ACM UMT – April 2024
Conducted by Saad Aslam
- Web 3.0 Fusion: Integrating Blockchain in Web Development
Google Developer Student Clubs – May 2024
- JavaScript Mern
NAVTTC certificate by government
- Java
Great learning academy
- Email Marketing
Great learning academy

ACADEMIC PROJECTS

- Car Management System (OOP Project)
Built using Inheritance and Polymorphism. Designed modular classes such as Wheel, Engine, and CarController to simulate a vehicle system.
- Study Abroad Recommendation App (SRE)
Collaborated on UI/UX design and backend logic. Led the requirement gathering, created a prototype, and documented the system workflow for a smart study-abroad advisor app.
- University Management System (DB)
Modeled and normalized a university database system. Applied advanced data structures (like trees) to organize and retrieve academic records efficiently.
- Student Entrepreneur – IoT Voice Assistant Project (Alexa-like device)
Developed a functional IoT voice assistant prototype similar to Amazon Alexa. Conducted market research, defined target audience, and created a marketing strategy to promote the product. Designed promotional materials and ran social media campaigns to attract early users. Practiced lean startup methods and gathered user feedback for improvement.
